MD, FACOG

Dear Friends of Foxhall OB/GYN Associates,

Kathleen E. Bren  
MD, FACOG

Shannon B. Green  
MD, FACOG

Lynne J. Lightfoote  
MD, FACOG

This is an exciting time in life, filled with busy days and plans for the future—and we are incredibly grateful that you have trusted us to be part of your story. Early next year, our practice will also be going through changes, and we want to share important information regarding future obstetrical care.

Nichole A. Pardo  
MD, FACOG

Madeline G. McAuliffe  
MSN, WHNP-BC

Beginning on January 1, 2025, Foxhall OB/GYN Associates will transition to Foxhall Women's Health. As Foxhall Women's Health, we will maintain our focus and deep commitment to comprehensive women's health. However, one significant change during this transition is that we will no longer offer obstetrical services. If having a baby is part of your future, we will continue to support you and your family in many ways—both before and after you welcome your new baby. Our services will still include preconception counseling, fertility evaluations, preliminary fertility treatments, and pregnancy confirmations through blood tests and ultrasound. We will simply no longer be your primary provider for prenatal visits and delivery.

When the time comes, we are happy to connect you with exceptional nearby obstetrical practices that deliver at Sibley Memorial Hospital. These practices are ready to welcome patients from Foxhall OB/GYN Associates, and we will assist you in selecting the practice and provider that best suits your needs. A dedicated member of our team will manage all paperwork and logistics to ensure a seamless transition to your new obstetrician.

Although we will no longer provide obstetrical care, we are excited to focus on delivering the comprehensive gynecological care you have come to rely on. Our physicians will continue to offer personalized support through every stage of life, working with you before and after pregnancy and addressing all your women's health needs. This includes contraception, breast health, gynecologic cancer screenings, screening and treatment of sexually transmitted infections, sexual health concerns, hereditary cancer risk assessments, and management of menstrual disorders, among other services.

We understand that this change may come as a surprise. Please know that we are here to answer any questions you may have about the changes to our practice and your care. Just as we have worked together for many years, we will continue to guide you through the next steps of your care so that you feel confident moving forward. If you have any questions, please do not hesitate to reach out to our OB Liaison by emailing [OBL@foxhallobgyn.com](mailto:OBL@foxhallobgyn.com).

It has been a joy and a privilege to be your partner in health, and we look forward to continuing to care for you in the future.

Warmly,  
Foxhall OB/GYN Associates
